## INVITATION

Dear Sir / Madam,

With immense pleasure, we would like to announce that, Pharmacologists and Consultants of our esteemed nation, under the initiative of Department of Pharmacology, GMC, Surat-Gujarat-INDIA have conceptualized to host a national *hybrid* conference “Indian Pharmacologists & Consultants On Net (IPCON 2021)” on 25<sup>th</sup> February 2021.

This unique conference will spring up offline as well as, an online event.

IPCON 2021 will cover burning and clinically relevant topics in the areas of cardiovascular disorders, neurological problems, metabolic syndrome, pain management, maternal and childcare as well as basic and clinical pharmacology along with emerging transformation of medical education. IPCON 2021 will enrich the field of academia by participation of eminent clinicians serving mankind across the nation, post-graduate students of various branches and undergraduate students ultimately will translate the benefits to the general population of the country.

IPCON 2021 is also a humble and honest effort to bring academicians of medical colleges and tycoons of clinical practice across the country under one umbrella as both are two sides of one coin. IPCON 2021 will not only be feathered with scientific plenums, poster and paper presentation, panel discussion but will also incorporate quiz and puzzles with sizzling shows of music, dance and fashion.

We have also planned a preconference workshop entitled “Psychopharmacology with special focus on early childhood development problems” on 24<sup>th</sup> February 2021, elaborating neurotransmission in greater depth and will bring clarity on issues like early childhood problems. This would lead to better understanding of neurological disorders as well as psychological problems in the society and will ultimately strengthen the decision-making process. We have confirmed speakers of international repute to conduct this workshop and are trying to obtain maximum participation across the country using virtual web for greater penetration and deeper impact.

Surat is famous for its delicious food since ages, so how food can be forgotten and for the first time on the globe, all online delegates residing in India will be delivered delicious food at their own destination either in their office or clinic or at home. The august committee members of IPCON 2021 will leave no stone unturned to make this event most memorable one with distribution of an e-Souvenir.
